

Focus Group Meeting

-- iOS App Privacy Features

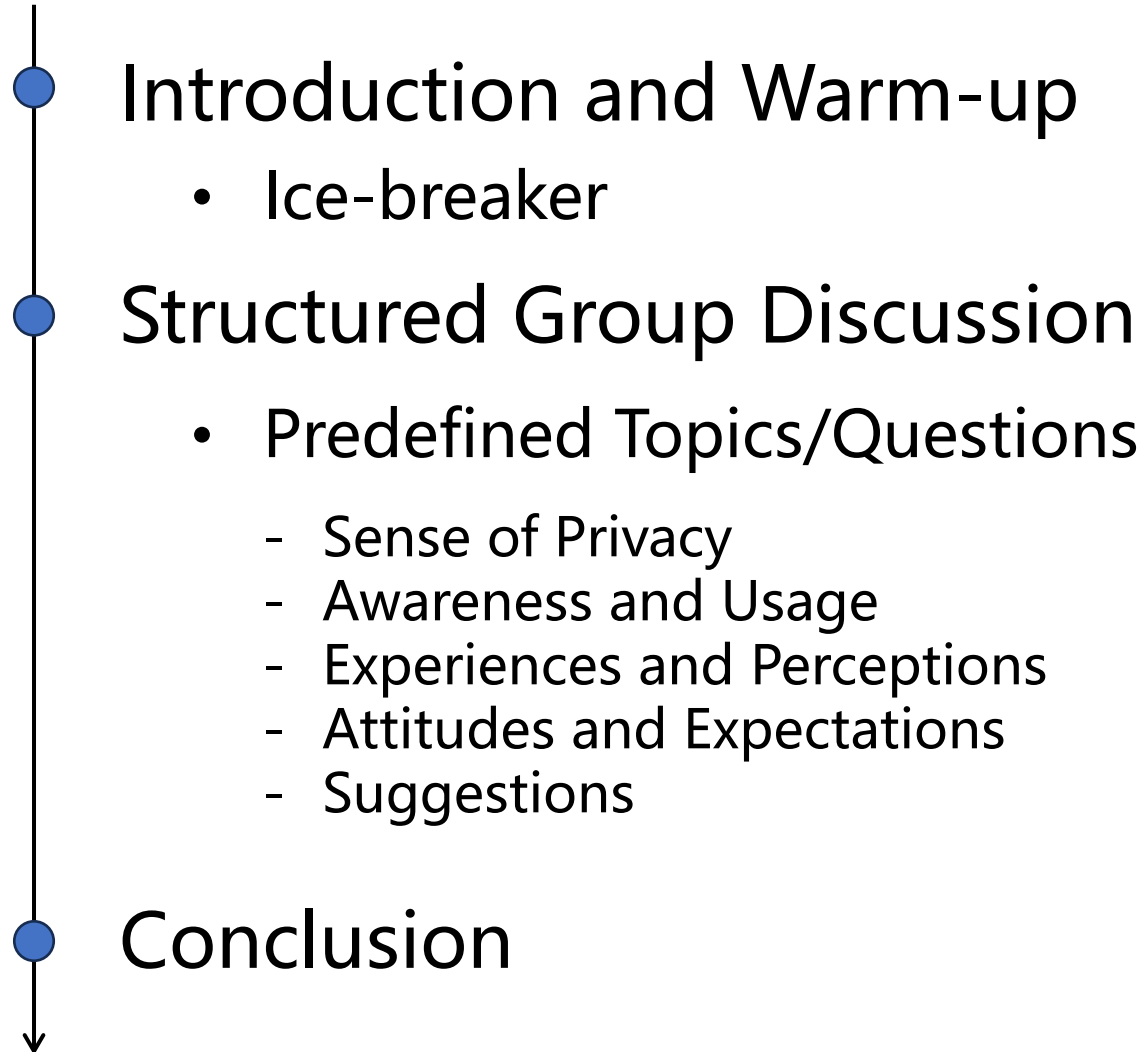

Moderator: Anonymous Researcher

Our Task

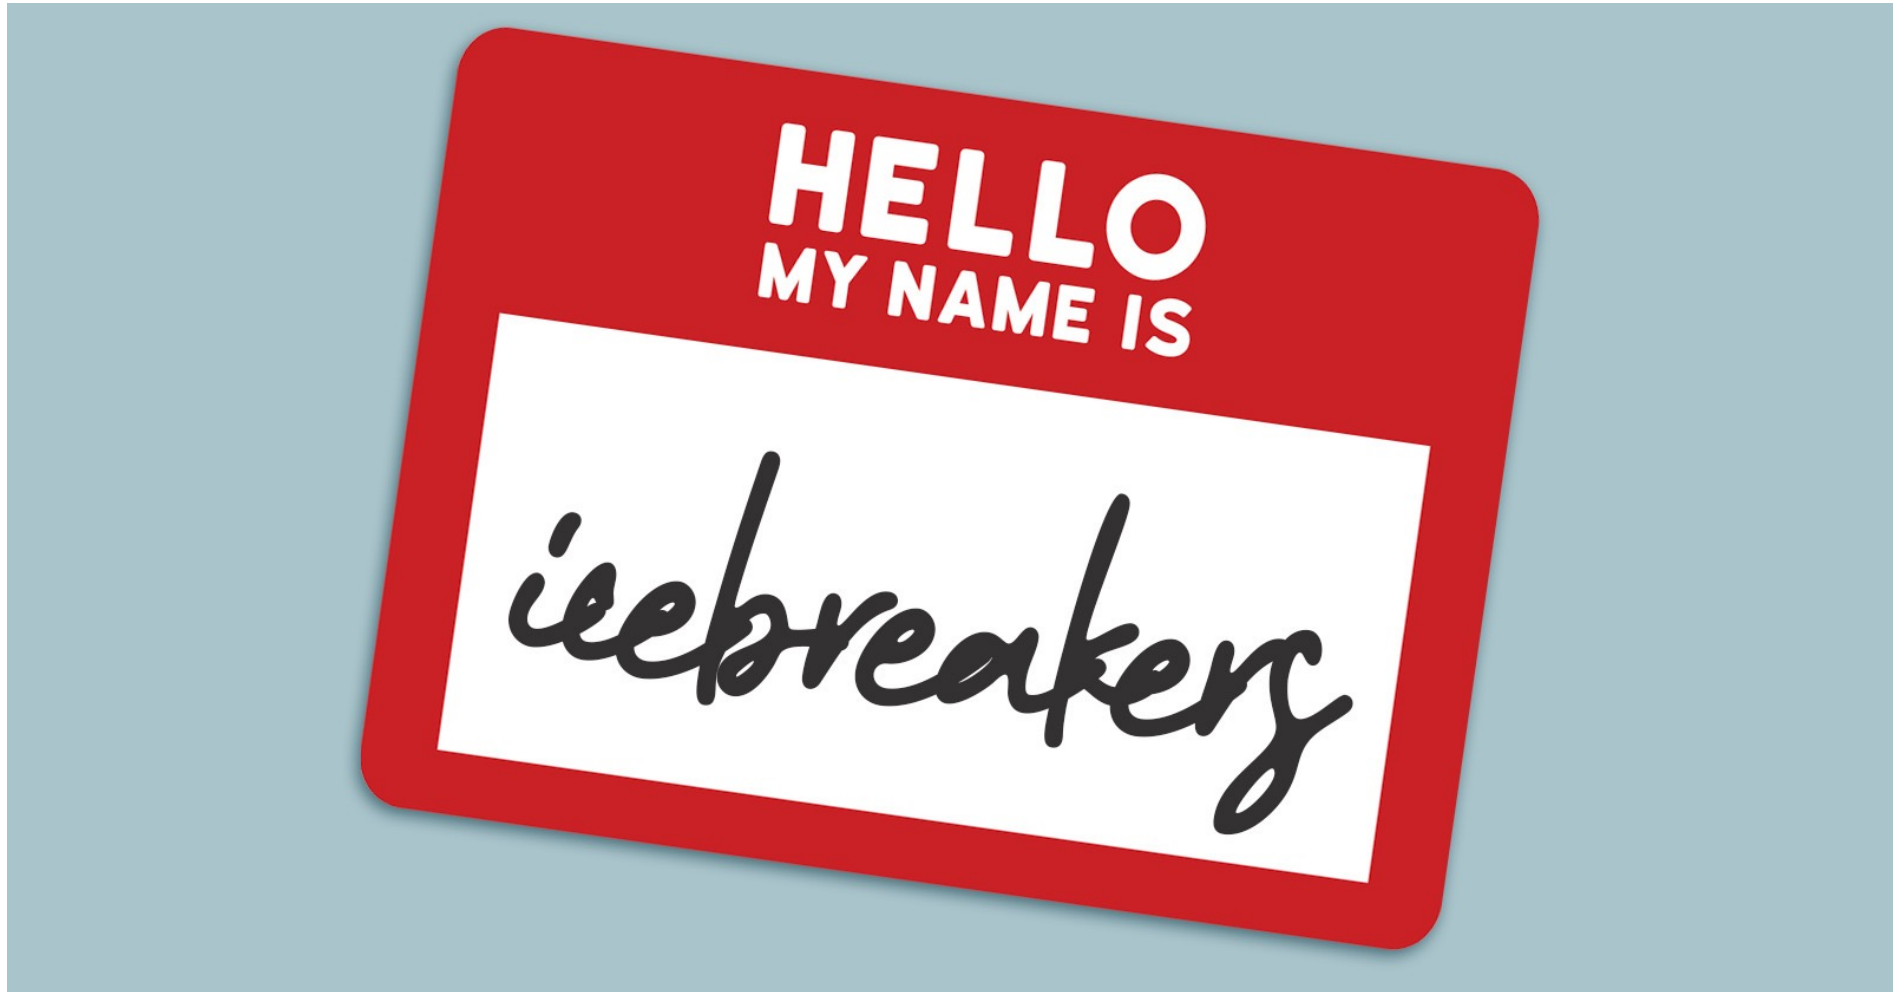

Focus Group Progress

The Meeting

Warm-up

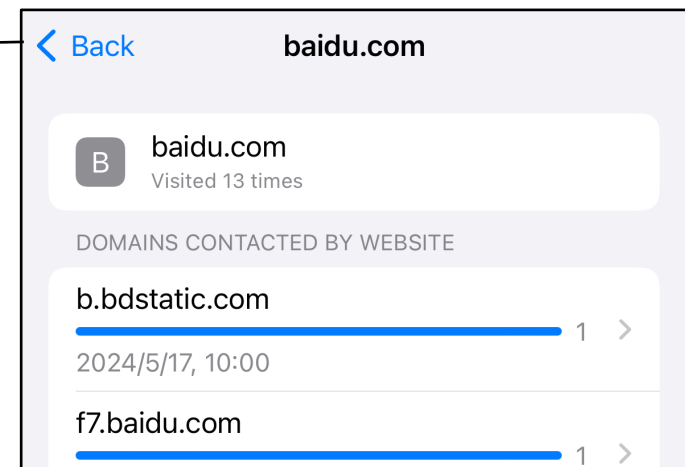

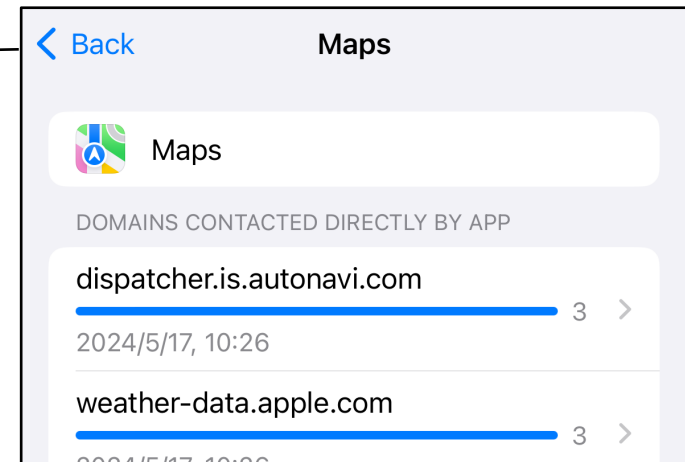

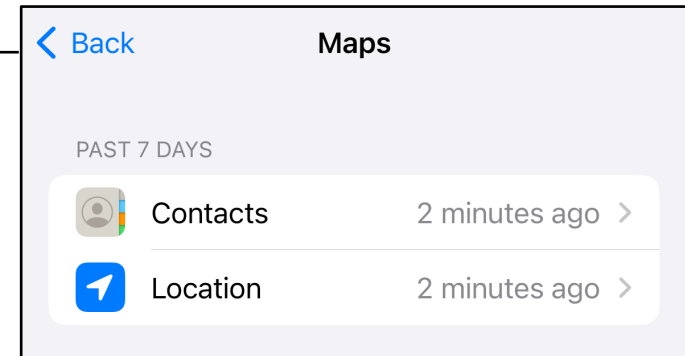

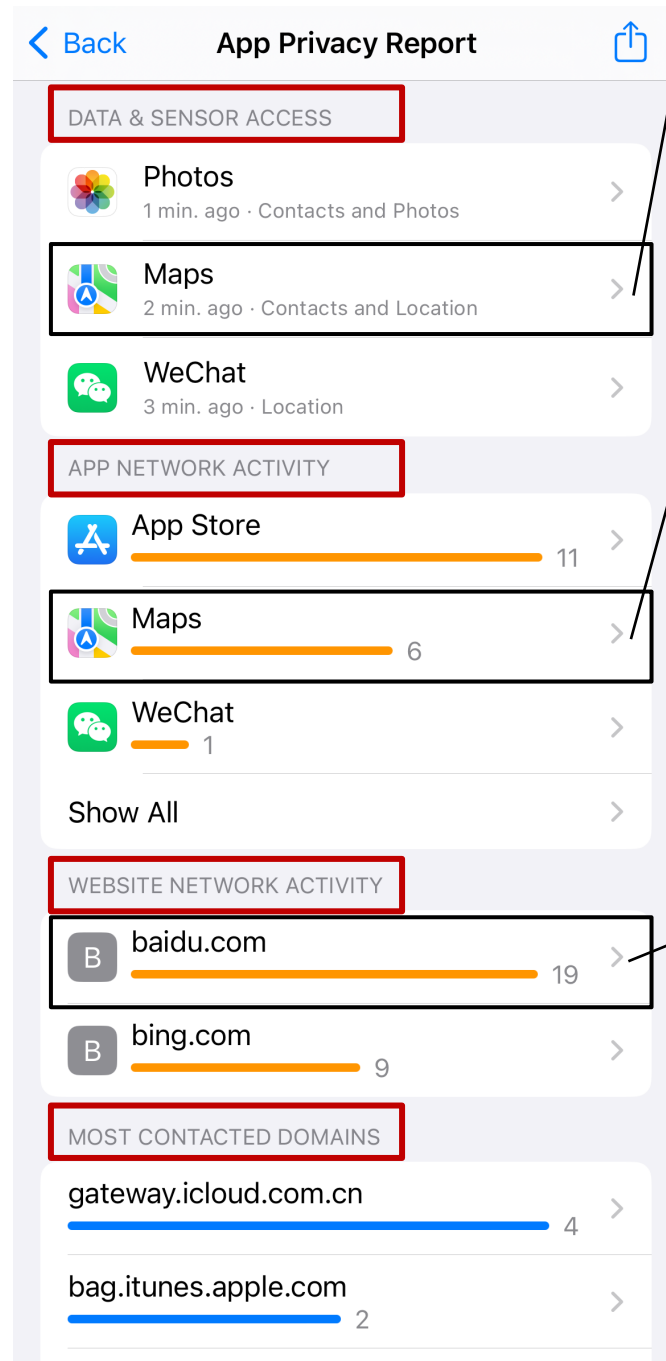

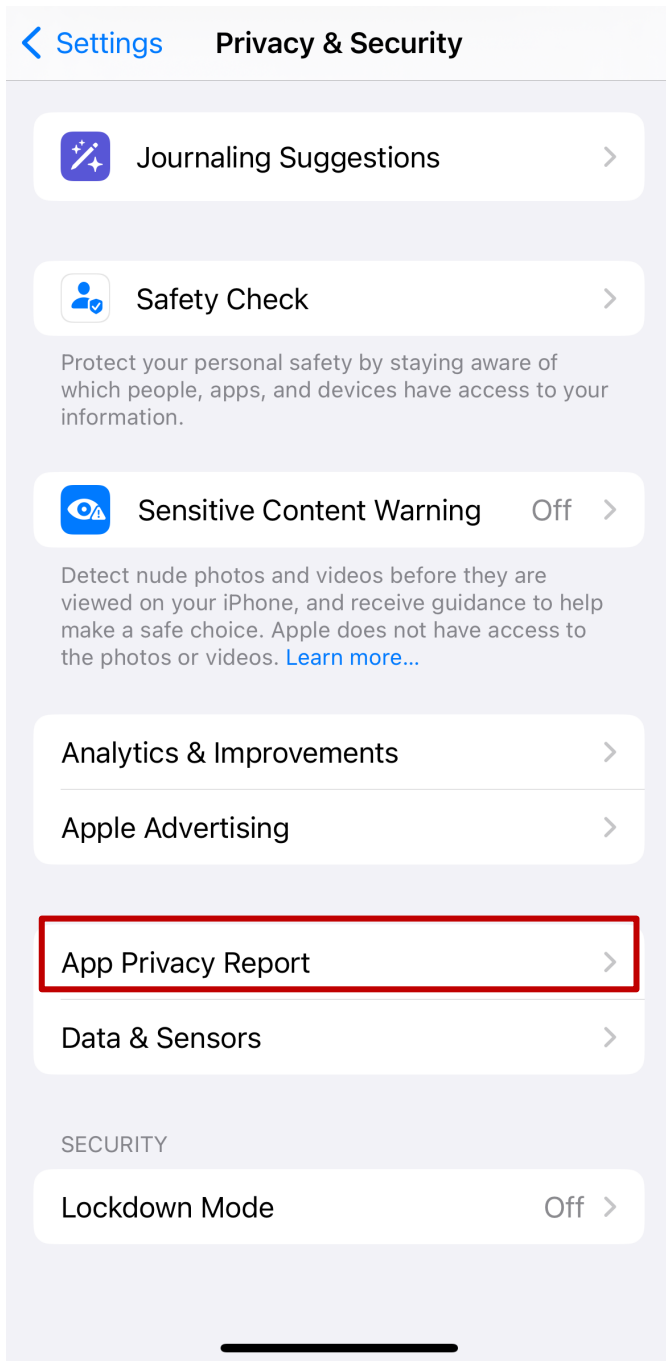

Group Discussion

- The objectives of the study
 - Understand the real users' experiences, perceptions, and opinions about the iOS App Privacy Report feature.
 - Develop a list of key questions (schedule).

Group Discussion

Topic	Questions for participants to discuss
Sense of Privacy	1. How important is privacy to you when using apps on your iOS device?
	2. On a scale from 1 to 10, how would you rate your concern about app privacy?
	3. What steps do you usually take to protect your privacy on your phone? (e.g., changing settings, reviewing app permissions, using privacy-focused apps)

Topic	Questions for participants to discuss
Sense of Privacy	1. How important is privacy to you when using apps on your iOS device?
	2. On a scale from 1 to 10, how would you rate your concern about app privacy?
	3. What steps do you usually take to protect your privacy on your phone? (e.g., changing settings, reviewing app permissions, using privacy-focused apps)
Awareness and Usage	4. Have you heard about the App Privacy Report feature? If so, how did you first learn about it?
	5. Have you enabled the App Privacy Report on your devices? If yes, what motivated you to enable it?
	6. How often do you check your App Privacy Report?
	7. Have you made any changes to your app usage or privacy settings based on the information provided in the App Privacy Report?

Interact with your device

1. Select several apps you familiar with
2. Interact with the apps and the Report
3. Familiarize with the Report
